FRIDAY EVE., JULY 25, 1890.

REPUBLICAN TICKET.

For State Treasurer,
FRANZ AMBERG,
Supt. of Public Instruction,
RICHARD NEEDS,
Trustee, Illinois Inst., C. G. NEEDS,
University, A. CHARLES BENNETT,
Clark Supreme Court,
JAMES J. FINN,
Clark Appellate Court,
L. C. MURPHY,
For Congress,
JONATHAN H. ROWELL.

It is fair to presume when the Review speaks of the REPUBLICAN hurling popgun bolts that the Review has lost its wad.

The Joint Resolution providing for a Constitutional Amendment, to be submitted to the voters of the state at the fall election, empowering the city of Chicago to contract an indebtedness of \$5,000,000 for World's Fair purposes; also the necessary bills were introduced in both Houses of the Legislature yesterday.

In anticipation of the coming county campaign and the nominations to be made this fall we went to remind every Republican of the county that there is danger in committing himself at this time to the support of men of other parties whose nomination is conceded and who may always be found strenuously at work endeavoring, on one pretext and another, to obtain Republican pledges of support for no other purpose than the defeat of the Republican nominees and the party. Every vote counts and Republicans should be very cautious about making pledges to candidates whose views are antagonistic to the principles of the Republican party, who are defeated. It is safe to say that the Republicans of Macon county will put as good a ticket in the field as the Democrats possibly can, and that it will be entitled to every Republican vote.

The Boss.

The South again comes to the front with a di-position to bully the North which sounds very much like threats that were made by that section in ante-bellum times.

Gov. Gordon, of Georgia proposes that in case the Federal Election fall to the South shall "boycott" the products and commerce of the North. This sentiment has supporters all through the gulf states, and in addition to it the Atlanta *Constitution* proposes the organization of a Home Rule League to oppose the law.

This is an unusual position for any section to put themselves in, and is especially so in the case of the South after all that has transpired in this government in the last period of thirty years, and in which the South, as a section, was one of the actors. The South, until the organization of the Republican party, put its own construction upon the constitution, with but little opposition from any organization. Those who opposed the South in its views of the constitution organized themselves into what became known as the Republican party. As soon as that party succeeded in electing a president the South resisted the right, as they claimed it, under the constitution, to withdraw from the Union. The war followed, and Southern constitutionalists were defeated. Their construction of the constitution on National matters is as antagonistic to that of the Republican party now as before the war. They refuse to admit the theory that the Nation under the constitution, has power to protect itself. These facts are up to every effort the Republican party makes to define the powers of the government by legislation. This is a peculiar trait of the Federal Election bill. In order to make that bill ominous they call it the Force Bill.

This is a favorite expression among the State Sovereignty people and is no new name among them. Back in 1832 the South attempted to dictate the policy of the government in the form of a bill of rights; for the purpose which the South had in view. It was defeated. The next year they, therefore, in a simple language, thank Americans for this notable assurance of their willingness at all times to accept any manifesto issued from themselves.

DON'T LET ME DOWN.

London, July 25.—The Daily Telegraph regrets the asperity of Secretary Blaine's tone in the Berlin Sea negotiations. England is strong enough to be calm and courteous, and is sufficiently fond of peace to disregard Mr. Blaine's performance.

MORE THAN A MATCH FOR SALISBURY. London, July 25.—The Daily Telegraph says Mr. Blaine proves able in controversy than Lord Salisbury, though he has the worse case to defend. The representatives of England were babies in Mr. Blaine's hands. It is obvious that Lord Salisbury, at an early stage lost his temper and insulted Mr. Blaine by declaring that he was conducting a ridiculous discussion which could do no one any good.

Mr. Reagan of St. George, Georgia, was in the same position when he met the different between Catholic and other schools. Mr. Davies said he would wish no later illustration than the difference between the Mission Indians of Southern California and the Indians of the Northwest. But the Senate committee has shrank from doing any thing to precipitate a religious discussion which could do no one any good.

PEOPLES DESIRE TO CONTINUE MUSIC LESSONS THIS SUMMER UNDER MY INSTRUCTIONS, PLEASE CALL AT 125 W. WOOD STREET. N. ALEXEN RUDOLPH. JUNE 27-1890.

—Work at the London and St. Catherine docks at a standstill, the union having called all the dock laborers out on strike in consequence of the dock directors refusing to allow the entry of the Dockers' union men.

—The City Council of Chicago has settled the World's Fair site question by agreeing to spend \$20,000 in filling in the Lakefront site. The land will be used as a park site for the fair. Jackson Park will also be used for some portions of the Exposition.

The rain of Wednesday evening washed the streets. Jack Frost will not come in about two months and that news. We suggest to the council the propriety of turning Alexander's salary over to the clerk of the weather.—*Review*. Is the Review certain that the weather clerk is a reform Democrat? If not, we would suggest that the salary be turned over to the city clerk, if his extreme modesty will permit him to take any more of the people's money in the shape of a salary than he is now getting. This master should not be sprung on the clerk suddenly. It might be dangerous in case of organic heart trouble. Better let Alderman Scanlan make the advances by slow approaches, beginning, say at about twenty paces, with wind.

—I care no more for newspaper and street talk than for the wind that blows through the trees.—*Alderman Scanlan*.

By this we infer that the wind has no more effect on the alderman than the alderman's reform pretensions have on lessening the burden of the tax-payers of the city. Oh the wind, the wind! There is no tax on the wind.

The Review suggests Alderman Scanlan as saying, at the last meeting of the city council, that he cared no more for newspaper and street talk than he did for the wind that blows through the trees.

In this we agree with the alderman and add that it is just so with any other corps.

Mexican War Officers.

Sixty-two Veterans of the Illinois Mexican War Association attended the annual meeting at Greencastle this week. They got through with their business last night, after making a street parade to meet at Mt. Vernon in August, 1891. The officers elected were: President, Col. Ferra Forman; Vice Presidents, P. T. Tudden, R. Summuddin, W. J. Urey, G. H. Dickson; Secretary, Capt. J. H. Whirtley; Assistant, D. B. Tower; Treasurer, Capt. James Creed.

John Sizerorn, of this city, and Miss Minnie Hild were married last evening at the home of the bride's parents in Mount Pleasant. Rev. Holst performed the ceremony in the presence of only the immediate relatives. Those present from Decatur were Mrs. Sizerorn and son, Adair, Mrs. Wiel, Mrs. Rothius and Miss Sophie Higgins. The couple arrived in the city last evening at 10 o'clock and will reside at No. 129 West Jefferson street.

London, July 25.—Mr. Gladstone yesterday received through Colonel Gordon and a delegation of Americans the addresses spoken into a phonograph by General Sherman and other distinguished citizens of New York at a recent meeting in that city. Mrs. Gladstone was also present. After listening to the addresses, Mr. Gladstone expressed his appreciation of the entire tribute. The character of the meeting which had preceded his (Mr. Gladstone's) letter, he said, gave the event a great additional distinction. The name of General Sherman supplied the highest passport of respect that any thing emanating from America could possibly require. After paying a tribute to General Sherman's patriotic service, Mr. Gladstone concluded by saying that he had become so accustomed to receiving notes of kindness from America that his vocabulary of gratitude was well nigh exhausted. He could only, therefore, in a simplest language, thank Americans for this notable assurance of their willingness at all times to accept any manifesto issued from themselves.

Mr. Gladstone, however, did not say that he had been so accustomed to receiving notes of kindness from America that his vocabulary of gratitude was well nigh exhausted. He could only, therefore, in a simplest language, thank Americans for this notable assurance of their willingness at all times to accept any manifesto issued from themselves.

BROKE HIS JAW.

City Clerk Betzer Meets With a Serious Accident at Peoria.

Yesterday F. C. Betzer, Decatur's city clerk, visited Peoria, and last evening while on his way to the Union depot to catch the outgoing train on the Terre Haute & Peoria road, he met with a serious accident which will prevent him taking anything but liquid food for several weeks. He was seated in a buggy with a friend when a recklessly driven team collided with the buggy and struck force as to smash the rig and then throw both Mr. Betzer and his friend out into the street. Mr. Betzer was struck in the face, and he felt that a bone had been fractured, but the fact that the right jaw bone had been broken was not discovered until some time afterwards. Part of one tooth was broken off and the jar was used as to cause the teeth of the city clerk to cut the inside of his mouth. At Peoria the tooth that was broken was partially extracted. On the way home Mr. Betzer was detained at Farmington because of an open switch accident to a freight train. When he got home Dr. Cass. Chenoweth attended him and found that the jaw bone had been fractured at the angle. It is a fracture difficult to discover, but it is there just the same and Cliff feels it. His face is badly swollen and the pain is excruciating. The break will heal in time and in a few weeks Cliff will be as sound as ever, but he will not soon forget his trip to Peoria.

The mean temperature was 75.4, which was 5.2 degrees above the normal of the past 15 years. Old settlers who said that the weather in June was the hottest they ever experienced were almost correct.

THE Pentecost Band No. 13 are having a very hot time at Atwood, Piatt county.

The citizens are endeavoring to drive them away. Their tent was out down and they were egged. The windows of the house they sleep in were broken and a number of shots fired at them. The people will not tolerate their fanatical actions and teachings, and are determined to get rid of them if they have to use force to do so.
